#### Abstract

**What role can we as coaches play, through our unique skills and contributions, in shaping the future of South Africa?** In response to critical challenges facing South Africa today, a diverse group of 35 South Africans – civil society and government, political parties, business, public administration, trade unions, religious groups, academia and the media – gathered to probe our country's present, and to consider possible futures. The Dinokeng Scenarios suggest three possible futures for South Africa, intended to stimulate action-oriented conversations among citizens as to their options and choices. This interactive workshop will engage with the broader social context of our work, and identify opportunities for each of us to walk together into a brighter future. "If you want to walk fast, walk alone. If you want to walk far, walk together." – African proverb
